

GAZ20 / GAZ24

INSTRUCTION MANUAL

UNPACKING THE MACHINE

- 1. Remove from pallet
- 2. Undo handle bolts and return to operating position.
- 3. Reconnect bolts when handle is in position
- 4. Re-attach dust bag to handle.

SAFETY

Important notice For safety reasons it is important you read this safety awareness manual prior to operating your LPG power product.

L.P.G Safety Awareness Manual

This Safety/Training Manual has been developed to encourage safe working habits of those Using engine powered equipment fuelled by Liquefied Propane Gas (LPG).

Please be reminded, this manual is *not* designed to instruct you on how to maintain floors, But is designed to instruct you on how to avoid incidents that could be brought on by unsafe Actions, poor maintenance and the lack of accurate knowledge.

READY TO USE

- Place the gas bottle into the holder on the machine with the outlet facing forward.
- Tighten the handle to hold the bottle in place.
- Connect the machine hose to the gas bottle.
- To release the gas turn the knob on the gas bottle.
- Before starting you should check the oil level to prevent unnecessary damage to your machine.

- When starting the machine, move the throttle lever to the off position.
- You should always start the machine with the pad off the surface, this done by pushing down on the handle.

READY TO USE

- In certain enviroments, you may need to prime the gas regulator, this is done by pressing the primer button on the outside of the regulator.
- To start press the start button located the battery with you foot, hold until engine start running, then release.
- Once running in idle, you now need push the throttle cable to the on position your machine is now at full throttle and ready to use.
- Lift the handle placing the pad on the floor, now you are ready to polish.
- Once finished lift the head from off the floor, return the throttle to the off position and close the gas bottle valve, waiting the engine stops. Now your machine safe to store

HOW TO USE

- Prepare your safety equipment.
- Plan the work Path. Clear obstacles from in you path .
- The gaz20/gaz24 burnishers work in a straight line, just walk slowly forward then complete a u-turn walk back overlapping the previous pass sufficiently, to give a uniform finish.
- Important note !! Keep the machine moving at all times to prevent burning the floor.

BATTERY MAINTENANCE

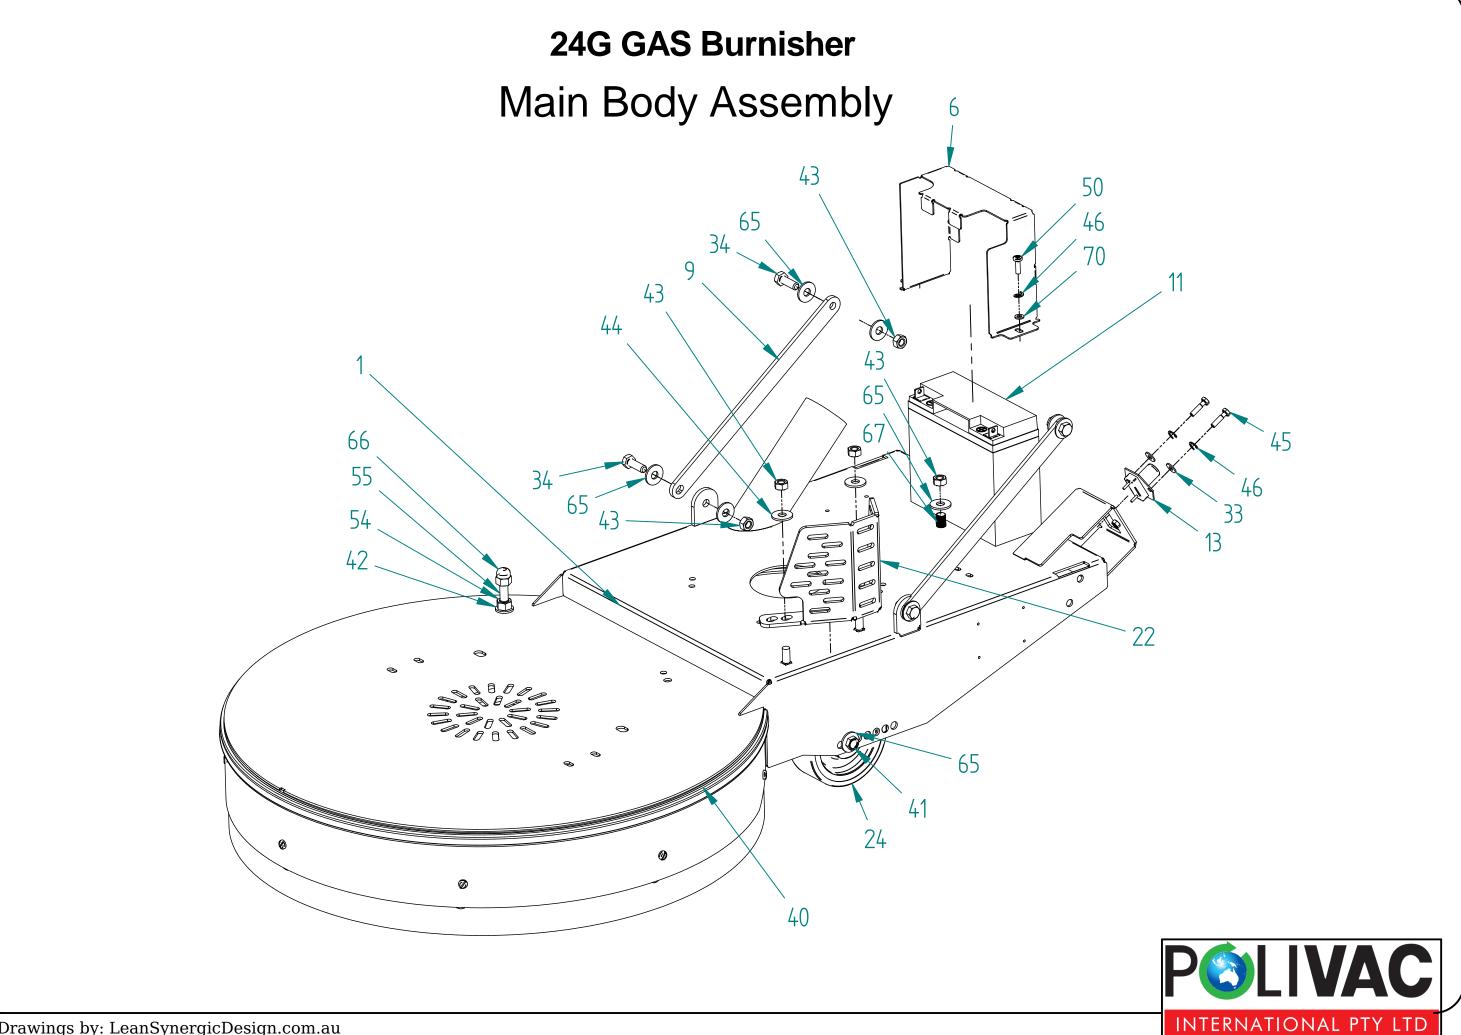

If you plan to leave the machine unused for a considerable period of time, disconnect the earth terminal on the battery to prevent battery discharge.

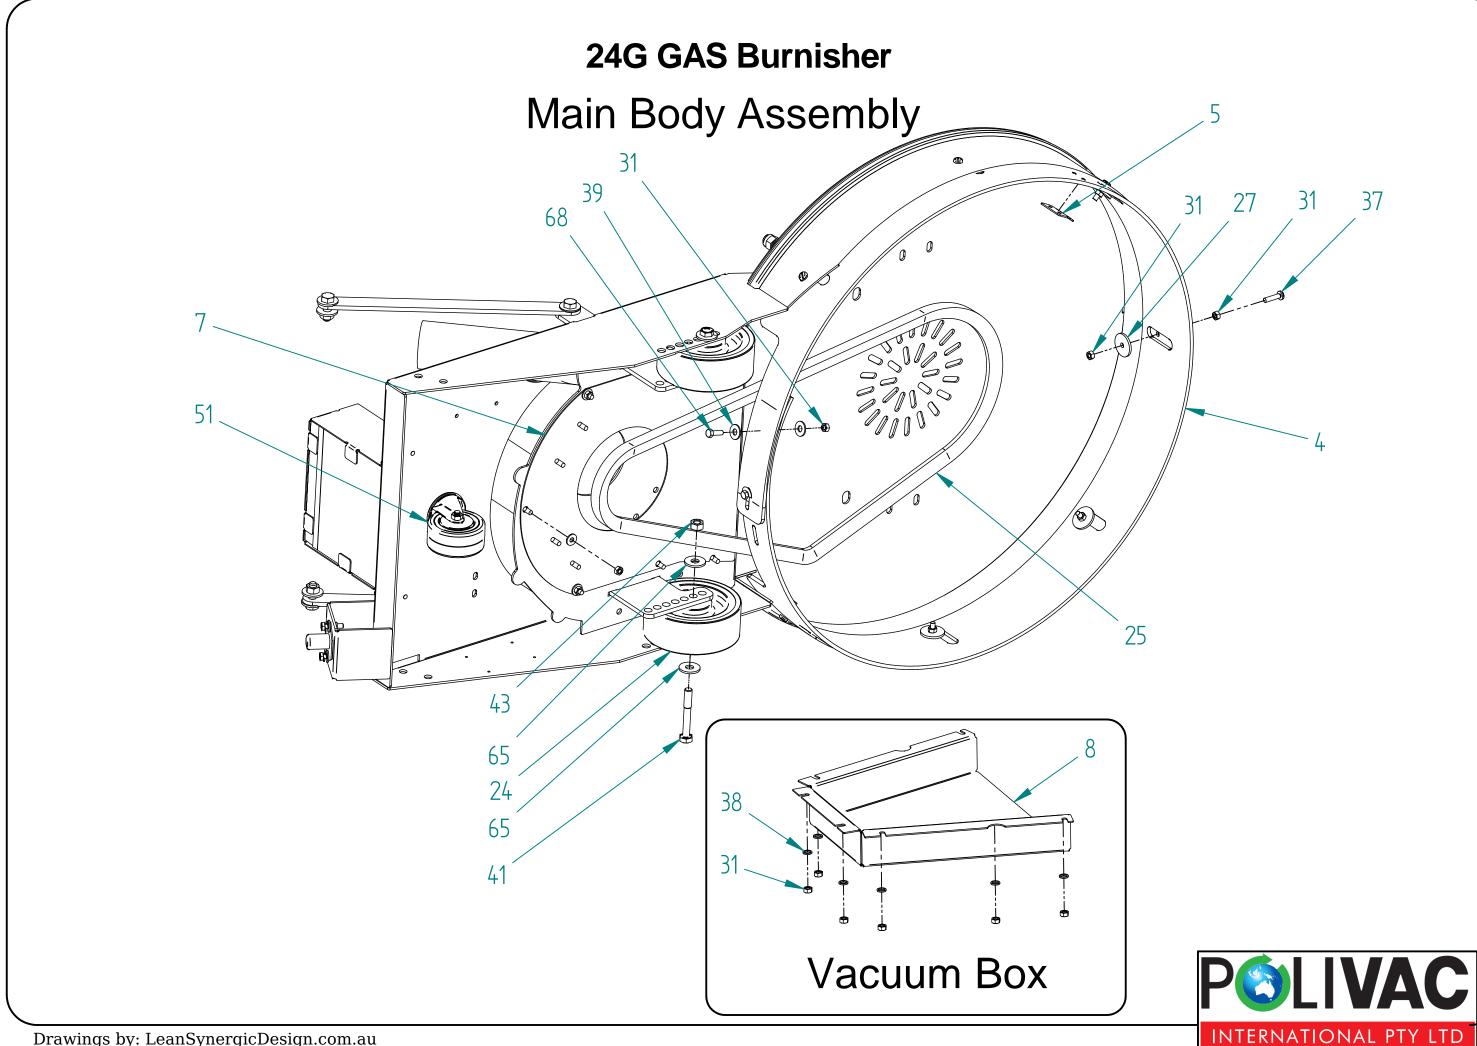

WARRANTY

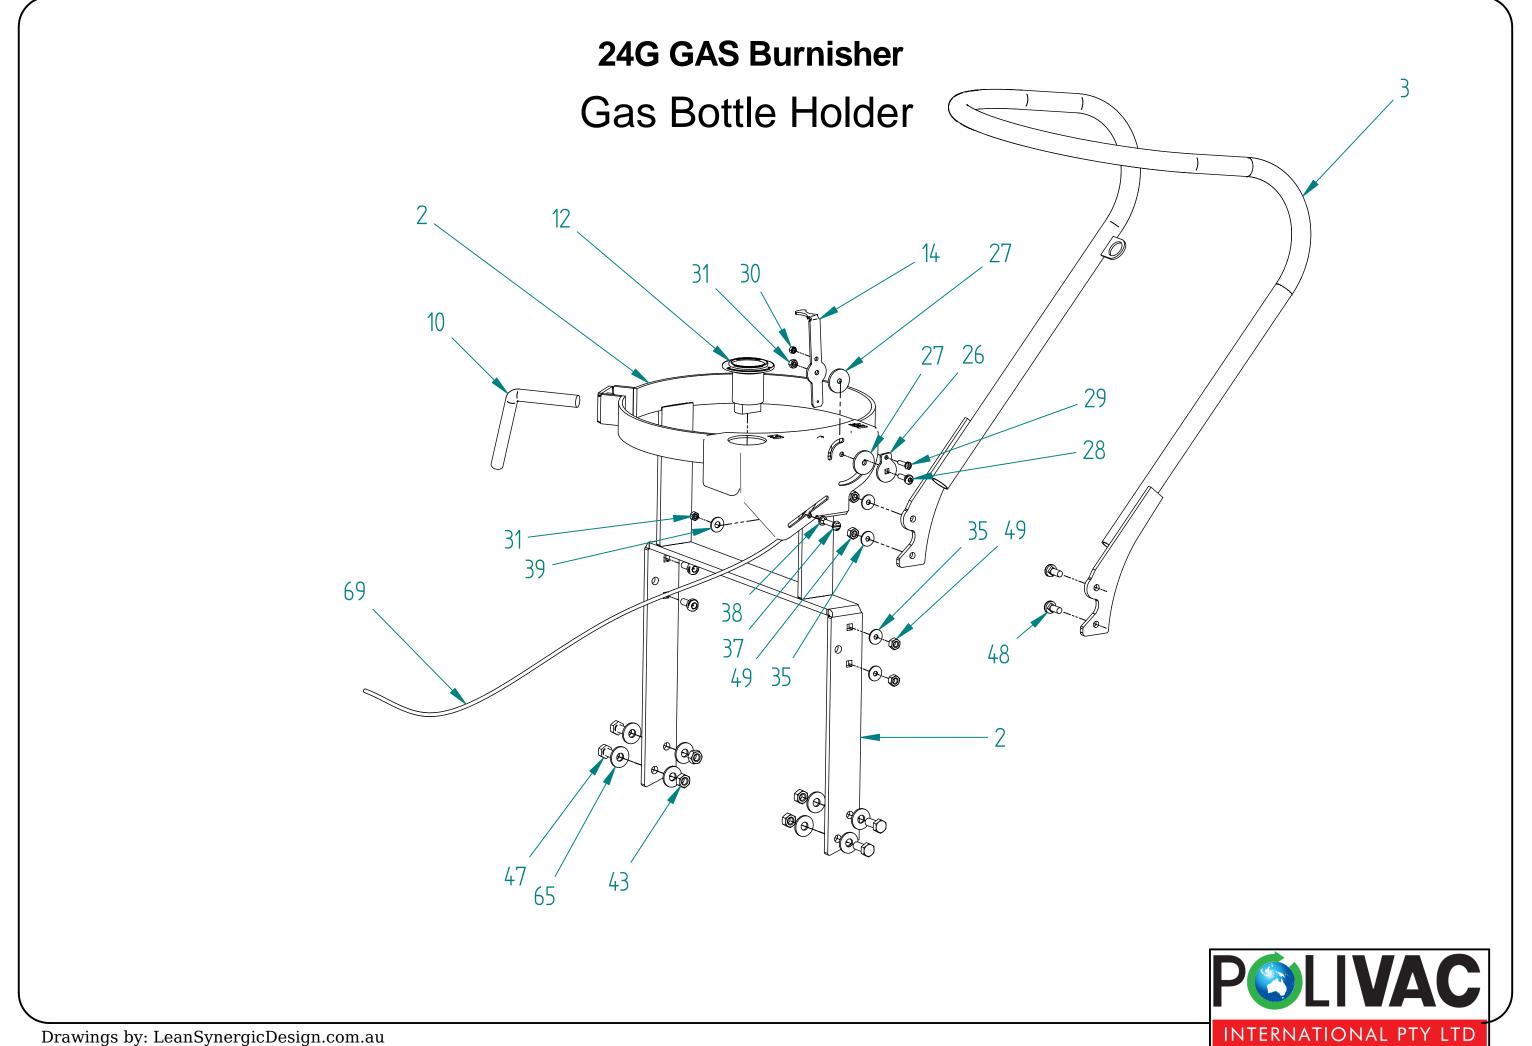

Polivac Warranty

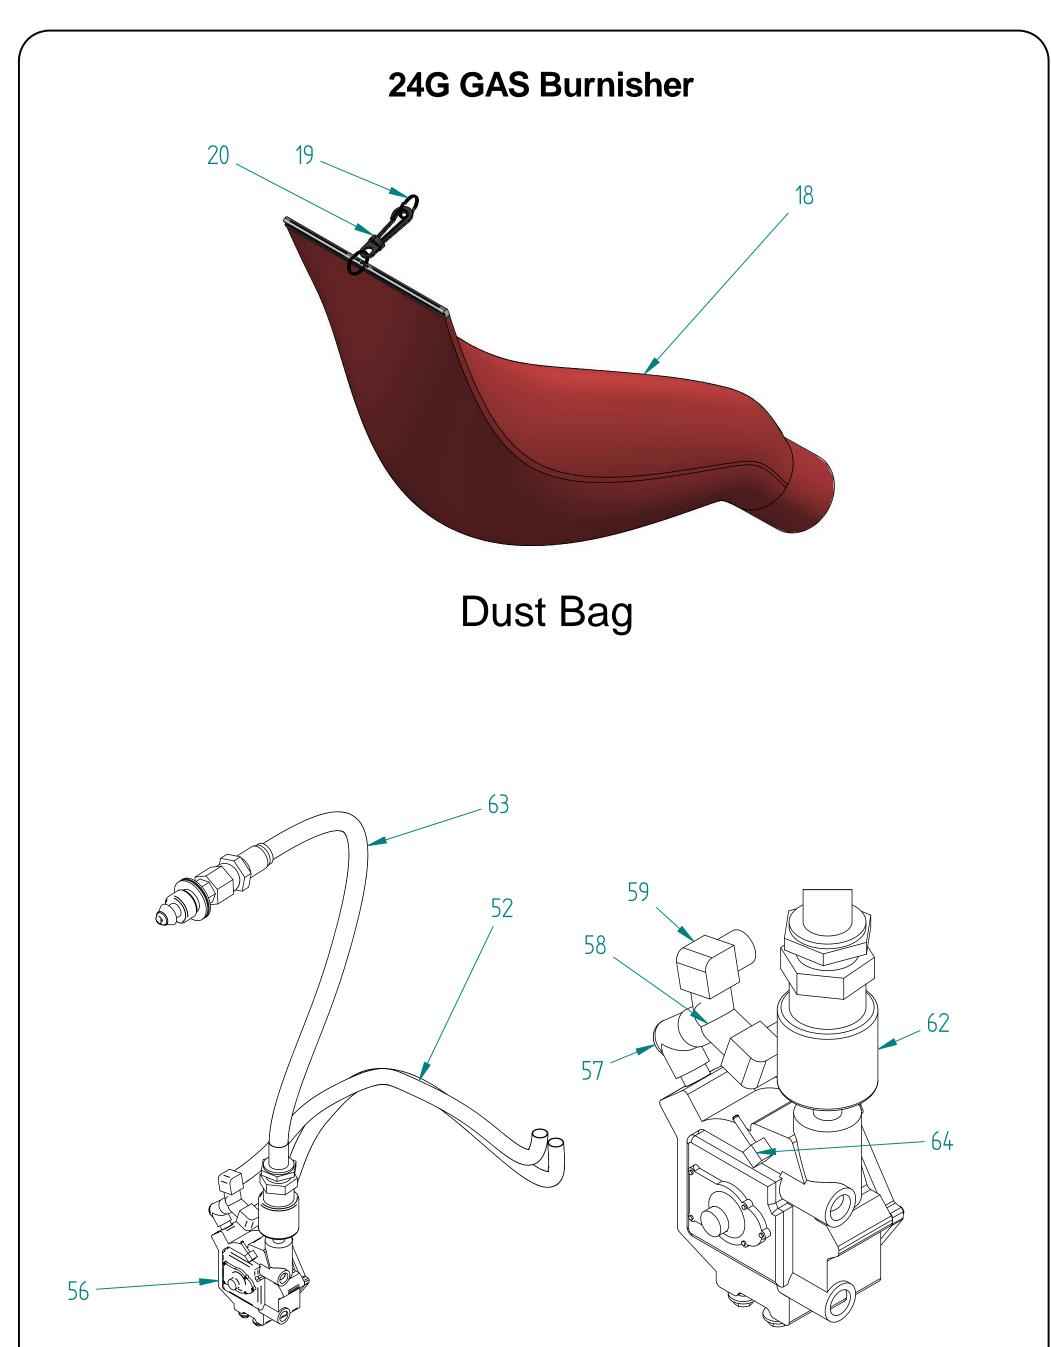

- When a warranty repair is justified, Polivac welcomes such repair by any of its authorized Service Centres. In most instances, the request for warranty brought to the attention of our service Divisions or Agents are handled in a prompt routine manner with no question of their validity. However, in some requests for warranty are received which are not justified. In these cases machine owners will be made aware that the premature failure of their equipment was the result of abuse, neglect or other cause not covered by Warranty.
- The Polivac warranty covers only DEFECTIVE MATERIAL and/or DEFECTIVE WORKMANSHIP. It does not cover labour.
- Your machine is warranted for 12 months from date of purchase by the original user against faulty workmanship or material. The warranty covers only the replacement, repair or adjustment of any part which in the opinion of Polivac fails as a result of a fault in manufacture assembly. Note 2 year warranty applies to drive motors and gearbox assemblies on electrical machines.
- In the case of Hire Companies or similar using the unit to rent on a casual basis then 3 months shall apply.
- This warranty does not cover service calls, travelling time, consumable parts, e.g. drive belts, chains, flexible skirt or hose, dust bags, mains leads, brushes, buffer, buffer strips, sanding discs, light bulbs, nozzles, filters, pressure pumps, piston seals, diaphragms and like items.
- In the case of proprietary components used by the manufacturer in his product, such as engines, electrical motors, chargers and the like Polivac will pass on any warranty given by the manufacture of these items.
- This warranty excludes batteries which are guaranteed for 90 days, by the manufactures from date of purchase of the equipment provided that the battery is kept filled to the proper level with distilled water and not abused.
- Accidental damage is not covered by warranty.
- Fair wear and tear is not covered by warranty.
- Only approved chemicals are to be used in the machine.
- All charges to and from the manufacturer, agent or service centre will be the responsibility of the owner.
- Repairs carried out by any other person other than an authorized Polivac repairer will cancel the warranty.
- A charge for traveling time and labour will be applicable for on-site warranty service.
- POLIVAC WARRANTY IS SUBJECT TO THE LAWS AND REGU
